

monster[®] EMPLOYMENT INDEX

UAE Report Summary; January 2019

According to the January 2019 [Monster Employment Index \(MEI\)](#), the UAE witnessed a substantial increase of 67 percent in online recruitment compared to the same period last year.

Contributing to this positive development, the IT (including Telecom/ISP) industry demonstrated the highest growth at 18 percent. This was closely followed by Education and Oil and Gas, which registered increases of 16 and seven percent respectively.

On a more sombre note, Consumer Goods (including FMCG, Food and Package Food, Home Appliance, Garments, Textiles, Leather, Gems and Jewellery) registered the steepest decline in terms of online hiring, experiencing a ten percent decrease from the same period last year. This was followed by BFSI (Business, Financial Services and Insurance) and Engineering (including Construction and Real Estate) which suffered from equal losses of nine percent.

Looking at occupation performance, Marketing (including Communications, Arts and Creative) witnessed the highest growth, seeing a 51 percent increase from January 2018. This was closely followed by Software (including Hardware and Telecom) and HR (including Admin) which benefitted from increases of 49 and 41 percent respectively.

Healthcare registered the steepest decline in the occupation category, suffering from a seven percent drop in performance. This was followed by Sales (including Business Development) and Customer Service which witnessed slight drops of three and two percent respectively.

On a regional level, the Hospitality industry recorded the strongest growth at 18 percent. This was followed by Oil and Gas and IT (including Telecom/ISP), which benefitted from healthy increases of 15 and 11 percent respectively, while Retail (including Trade and Logistics) and Education grew by a minimal three and two percent respectively.

Looking at industries that experienced the steepest decline in growth, Consumer Goods (including FMCG, Food and Packaged Food, Home Appliance, Garments, Textiles, Leather, Gems and Jewellery) and Advertising (including Market Research, Public Relations, Media and Entertainment) both suffered from an eight percent drop while Chemicals (including Plastic, Rubber, Paints, Fertilizer and Pesticides) suffered from a decrease of seven percent. Engineering (including Construction and Real Estate) and Production (including Manufacturing, Automotive and Ancillary) witnessed slight decreases of five and two percent respectively.

In terms of occupations, Finance (including Accounting) benefitted from a substantial 67 percent increase, followed by HR (including Admin) and Customer Service which profited from surges of 40 and 34 percent respectively. Software (including Hardware and Telecom) and Marketing (including Communications, Arts and Creative) benefitted from equal increases of 27 percent.

In terms of the lowest growing occupations, Engineering (including Production) industry witnessed the sharpest decrease at four in the regional occupation category. This was followed by Purchase (including Logistics and Supply Chain) which registered a slight two percent drop while Legal, Hospitality (including Travel) and Sales (including Business Development) recorded moderate increases of 11, seven and six percent respectively.

In the wider GCC region, Bahrain registered healthy growth in online hiring activity at 22 percent, while Saudi Arabia and Egypt recorded increases of 15 and eight percent respectively. Qatar registered slight growth at four percent, while Kuwait and Oman benefited from miniscule increases of two and one percent respectively.

About the [Monster Employment Index](#)

Launched in April 2011 with data collected since October 2010, the [Monster Employment Index](#) is a broad and comprehensive monthly analysis of online job posting activity in the Middle East conducted by [Monster.com](#). Based on a real-time review of tens of thousands of employer job opportunities culled from a large, representative selection of online career outlets, including [Monster Gulf](#), the [Monster Employment Index](#) presents a snapshot of employer online recruitment activity nationwide. Monster has taken due care in compiling and processing the data available from various sources for [Monster Employment Index](#), but does not guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or action / decision taken or for the results obtained from the use of such information.

About Monster APAC & Gulf

[Monster](#), for more than 20 years, is a leading online career and recruitment resource and with its cutting-edge technology provides relevant profiles to employers and relevant jobs to jobseekers across industry verticals, experience levels and geographies. Monster today has more than 200 million people registered on the Monster Worldwide network, and with operations in more than 40 countries, provides the widest and most sophisticated job seeking, career management, recruitment and talent management capabilities.

[Monster](#) in APAC & Gulf started its operations with India, in 2001 and has operations across India, Singapore, Malaysia, Philippines, Hong Kong, Vietnam, Thailand, Indonesia, UAE and Kingdom of Saudi Arabia. In India it is headquartered in Hyderabad, and has presence in 10 other cities of India viz., Mumbai, Delhi, Bangalore, Chennai, Pune, Kolkata, Ahmedabad, Baroda, Chandigarh, and Cochin. Monster Mobile App in India was voted Product of the Year in 2016 under the 'Mobile App Job' category in a survey of over 18000 people by Nielsen. Monster.com in India was also voted Product of the Year in 2015 and back in 2014, mPower Search was voted Product of the Year as well. The Indian Air Force Placement Cell (IAFPC) selected Monster India for a collaboration to provide a robust platform to assist retired and shortly retiring Air Warriors seek suitable second career opportunities in the corporate world. Monster also initiated 'Rozgarduniya.com' - a job portal exclusively for jobseekers in rural India to enable employers in corporate India to connect with rural talent, thus removing the traditional barriers they face in this process.

[Monster](#) continues its pioneering work of transforming the recruiting industry with advanced technology using intelligent digital, social and mobile solutions, and a vast array of products and services.

MEI DATA:

Monster Employment Index Middle East results for the past 18 months are as follows:

Aug 17	Sep 17	Oct 17	Nov 17	Dec 17	Jan 18	Feb 18	Mar 18	Apr 18	May 18	Jun 18	Jul 18	Aug 18	Sep 18	Oct 18	Nov 18	Dec 18	Jan 19	Y-o-Y
79	85	96	107	108	97	100	103	101	100	95	101	110	104	109	106	104	110	13 %

Industry Year-over-Year Trends: Online recruitment activity exceeded the year-ago level in six of the 12 sectors monitored by the Index.

- **Hospitality** (up 18 percent) was the most actively hiring sector yet again charting progressive growth year-on-year. The short-term growth parameters also point at rising demand in the sector. Available opportunities in the sector surpassed the three-month and six-month ago level by nine percent and 15 percent respectively. Demand on the month increased by four percent.
- **Oil and Gas** (up 15 percent) ranked second from the top in the long-term growth chart. However, the short-run growth parameters indicated a slowdown in the pace of hiring in the recent months. The sector saw no growth on a month-on-month basis and registered fewer opportunities when compared to the corresponding period three-month (down 18 percent) and six-month (down 11 percent) ago
- Online recruitment activity in **IT and Telecom/ISP** exceeded the year-ago level by 11 percent; up from seven percent in December 2018. The sector registered uptrend in hiring demand on all other growth parameters as well; up by two percent on a month-on-month basis, seven percent on three-month and 15 percent on six-month basis.
- Among others, **Retail/Trade and Logistics** (up three percent); **Education** (up two percent); and **Health Care** (up one percent) registered growth on the year following low levels in the previous month. Demand on the month increased by six percent, five percent and one percent respectively.
- Year-on-year, **Engineering, Construction and Real Estate** (down five percent); **BFSI** (down one percent); **Production/Manufacturing, Automotive and Ancillary** (down two percent); **Chemicals/ Plastic/ Rubber, Paints, Fertilizer/ Pesticides** (down seven percent); **Consumer Goods/ FMCG, Food & Packaged Food , Home Appliance, Garments/ Textiles/ Leather, Gems & Jewellery** (down

eight percent); **Advertising, Market Research, Public Relations, Media and Entertainment** (down eight percent) continued to chart subdued hiring. BFSI sector also registered steepest decline in demand on a month-on-month basis among all monitored sector; down by nine percent

Top Growth Industries

Year-over-year Growth	Jan 18	Jan 19	% Growth Y-o-Y
Hospitality	82	97	18%

Purchase / Logistics / Supply Chain	94	92	-2%
Engineering and Production	115	110	-4%

Geographic Year-over-year Trends: Online demand exceeded the year-ago level in all seven countries monitored by the Index.

- Online recruitment activity exhibits strongest growth in the **UAE**. A 67 percent increase in opportunities from the corresponding period a year-ago is the steepest annual growth recorded in the series. Demand on the month increased by seven percent. E-recruitment activity, however, continued to hover below the three-month ago level.
- Hiring demand strengthened in **Bahrain** and **KSA** as well. In Bahrain, the year-on-year growth momentum paced up from 18 percent in December to 22 percent in January while in KSA the growth rate picked up from seven percent in December to 15 percent in January. Demand on the month increase by two percent and six percent respectively.
- Among monitored countries, **Kuwait** (up two percent) and **Oman** (up one percent) witnessed some of the lowest growth vis-à-vis the corresponding period a year-ago. It is notable, year-on-year growth in Oman recovered this month having charted de-growth in November as well as in December. Also, month-on-month demand increased by four percent. Kuwait however witnessed eight percent decrease in online hiring activity between December 2018 and January 2019.

KSA Report Summary; January 2019

According to the January 2019 [Monster Employment Index \(MEI\)](#), Saudi Arabia witnessed an increase of 15 percent in online recruitment compared to the same period last year.

Contributing to this positive development, Education demonstrated the highest increase at 24 percent. This was followed closely by BFSI (Business, Financial Services and Insurance) and Oil and Gas which benefited from increases of 22 and 20 percent respectively.

On a more sombre note, Chemicals (including Plastic, Rubber, Paints, Fertilizer and Pesticides) registered the steepest decline at one percent. Consumer Goods (including FMCG, Food and Packaged Food, Home Appliances, Garments, Textiles, Leather, Gems and Jewellery) and Retail

(including Trade and Logistics) witnessed minimal increases of five and two percent respectively according to the latest [MEI](#).

Looking at occupation performance, Finance (including Accounting) was rewarded with the highest growth, seeing a 32 percent increase from January 2018. This was closely followed by Health Care and Software (including Hardware and Telecom) which benefitted from increases of 22 and 17 percent respectively.

Analysing occupations which registered the lowest growth, Marketing (including Communications, Arts and Creative) witnessed the largest drop in performance at negative two percent. This was closely followed by Engineering (including Production) which recorded a decline of one percent, while Sales (including Business Development) saw a miniscule increase of one percent.

On a regional level, the Hospitality industry recorded the strongest growth at 18 percent. This was followed by Oil and Gas and IT (including Telcom/ISP), which benefitted from healthy increases of 15 and 11 percent respectively, while Retail (including Trade and Logistics) and Education grew by a slight three and two percent respectively.

Looking at industries that experienced the steepest decline in growth, Consumer Goods (including FMCG, Food and Packaged Food, Home Appliance, Garments, Textiles, Leather, Gems and Jewellery) and Advertising (including Market Research, Public Relations, Media and Entertainment) both suffered from an eight percent drop, while Chemicals (including Plastic, Rubber, Paints, Fertilizer and Pesticides) suffered from a decrease of seven percent. Engineering (including Construction and Real Estate) and Production (including Manufacturing, Automotive and Ancillary) witnessed slight decreases of five and two percent respectively.

In terms of occupations, Finance (including Accounting) benefitted from a substantial 67 percent increase, followed by HR (including Admin) and Customer Service which profited from surges of 40 and 34 percent respectively. Software (including Hardware and Telecom) and Marketing (including Communications, Arts and Creative) benefitted from equal increases of 27 percent.

In terms of the lowest growing occupations, Engineering (including Production) industry witnessed the sharpest decrease at four in the regional occupation category. This was followed by Purchase (including Logistics and Supply Chain) which registered a slight two percent drop while Legal, Hospitality (including Travel) and Sales (including Business Development) recorded moderate increases of 11, seven and six percent respectively.

In the wider GCC region, the UAE registered remarkable growth in online hiring activity at 67 percent, while Bahrain and Egypt recorded increases of 22 and eight percent respectively. Qatar registered slight growth at four percent while Kuwait and Oman benefited from miniscule increases of two and one percent respectively.
